

How Much Will It Cost?

APPROXIMATELY 80% of the cost will be the labour, ground preparation and installation.

APPROXIMATELY 20% of the cost is product, so buying the best product you can will not add significantly to the overall cost.

A GUIDE PRODUCT PRICE BAND IS SHOWN ON EACH PAGE

MARSHALLS FIRST TO CARBON FOOTPRINT

Marshalls is the first company anywhere to carbon footprint its entire UK domestic manufactured range. The latest independently certified* carbon emission values are available on our website, see the link below.

**Certified by the Carbon Trust*

www.marshalls.co.uk/homeowners/hard-landscaping-carbon-footprint-calculator

The leaf symbol shown on each product page means you can measure the carbon footprint of your project using our easy to use calculator on the web link below.

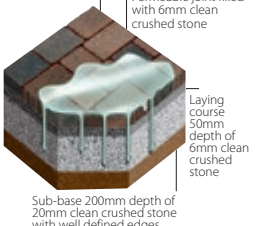

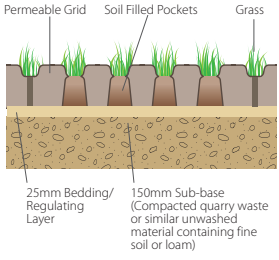

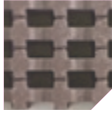

MARSHALLS DRIVEWAY SOLUTIONS

Everyday decisions such as creating vehicle parking areas on our properties can have environmental consequences.

	DRIVESYS® DRIVEWAYS	DRIVESETT® DRIVEWAYS	DRIVELINE® DRIVEWAYS
	Driveways which combine the most up to date textures and finishes with the latest innovation in driveway engineering. Every driveway features Drivesys patented technology to ensure straightforward and quick installation	With a wide choice of gauges, textures and colours there is a Marshalls Drivesett driveway for everyone. From traditional setts to more versatile sizes, Drivesett driveways are renowned for Marshalls lasting high quality. Drivesett Tegula is the most popular Drivesett driveway, it is the original and most popular 'aged look' block paving in the UK	Always a bold, single block size Driveline driveways can be used to create a statement whatever your budget Finishes range from premium aggregates to standard smooth look
SUB-BASE DESIGN	<p>30mm compacted Sharp River Sand</p> <p>Block Paving</p> <p>Appropriate Jointing Material</p> <p>Geo Textile Membrane if ground conditions dictate</p> <p>150mm MOT Type 1 Aggregate laid and compacted in two layers of 75mm</p>		
SUDS COMPLIANT	For the majority of the country if you direct rainwater to a flower bed or another area of the garden which has been designed to allow water to drain away, such as a soak away, your driveway will be compliant. If you do not make any provision for the rain water that falls on your driveway Planning Permission is likely to be required. In all cases it is best to check the rules in your local area

DRIVESYS® PATENTED DRIVEWAY SYSTEM

Drivesys Split Stone, Basalt (B)

With a unique patented contoured base, Drivesys is a structurally superior driveway system which looks and feels just like natural stone

Drivesys Split Stone, Basalt (B)

Drivesys Split Stone, Grey Green (GG)

Drivesys Original Cobble, Basalt (B)

Drivesys Original Cobble, Iron Grey (IG)

Drivesys Original Cobble, Canvas (CN)

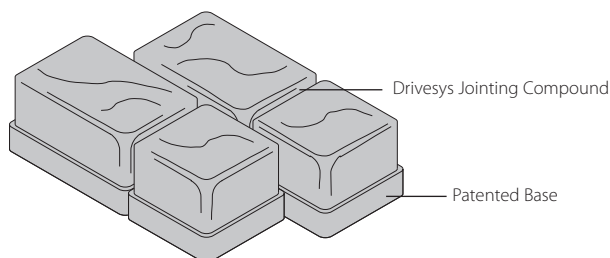

Drivesys Riven Stone, Basalt (B)

Drivesys Riven Stone, Silver Grey (SG)

Drivesys Riven Stone, Golden (GO)

- Drivesys patented driveway systems have been specially engineered to be straight forward and quick to install, keeping disruption to a minimum
- Unique Drivesys systems look and feel like natural stone
- The smooth lines of Drivesys Split Stone make it the perfect contemporary option
- Drivesys Original Cobble has the character of timeless reclaimed cobblestones
- The intricate detail of Drivesys Riven Stone brings a warm aesthetic to the Drivesys range

Patented Drivesys System:

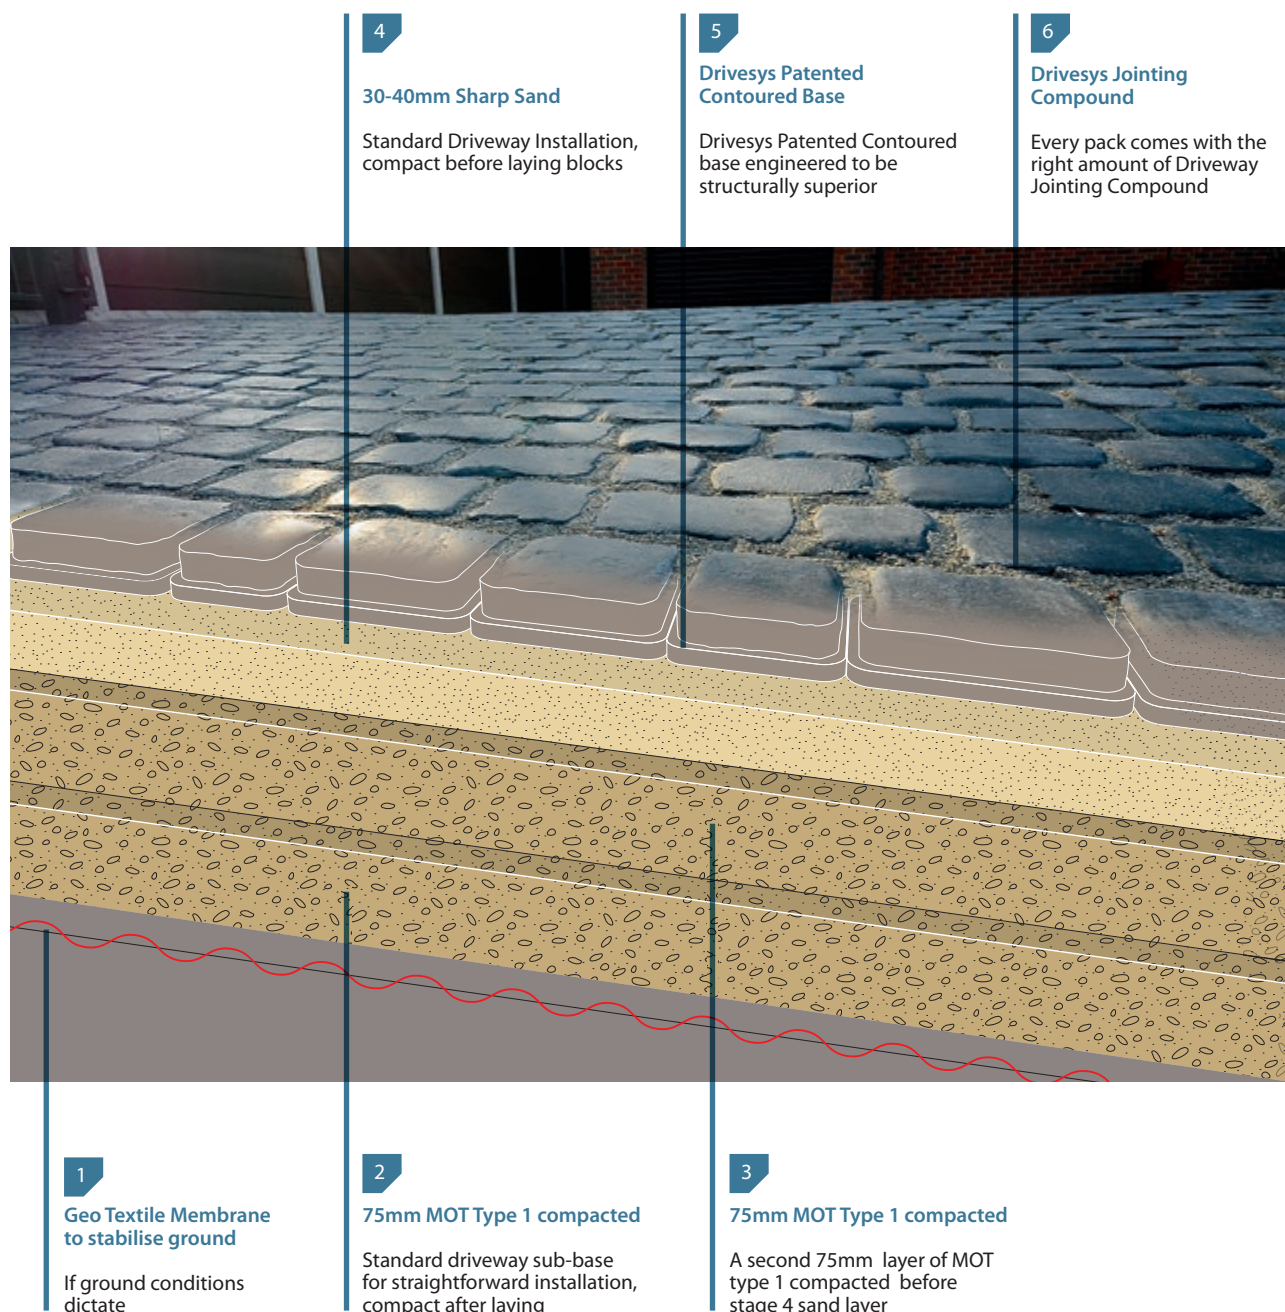

- Drivesys blocks come with a protective transportation seal which will remain slightly slippery underfoot until weathered. Once dissipated blocks may appear lighter in colour

Marshalls recommends the patented Drivesys Driveway system is installed by Marshalls Register Installers

Drivesys® Driveway Systems

Installation

THE ULTIMATE DRIVEWAY LAYING COURSE:

Drivesys allows you to achieve a premium natural stone look without using a full mortar bed. The patented, contoured block base allows you to lay directly onto a standard MOT and sand sub-base.

- No need to work out jointing material volumes as every pack of Drivesys comes with the correct amount of specialist jointing material
- No need to worry about achieving the right mix of sizes, as the right ratio of blocks comes in every pack
- No time wasted mixing jointing, as we will send it to you ready mixed and in 15kg tubs

For diagrams and important installation guidance, see page 184

DRIVESYS® PATENTED DRIVEWAY SYSTEM

Riven Stone

Drivesys Riven Stone, Basalt (B), edged with
Drivesys Split Stone, Grey Green (GG)
Designed and Installed by Gary Pearce Landscapes Ltd, Shrewsbury

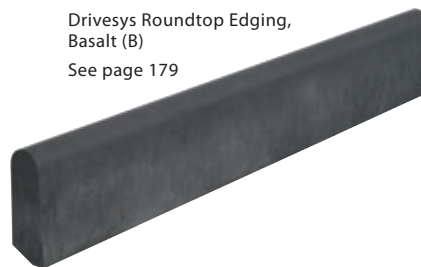

- Patented Drivesys contoured base allows a premium riven look
- A variety of realistic face profiles and sizes make for a cost effective alternative to natural stone driveways
- Hardwearing colour and finish
- Carefully engineered driveway system supplied with the right amount of jointing compound enabling quick laying in random courses
- Coordinating roundtop driveway edging option available in Basalt

NEW Edging designed to complement Drivesys Driveways

CUTTING THE BLOCKS

When cutting the blocks as outlined in Marshalls Flexible Installation Guidelines (see page 184), it is important to make sure that once cut with water the block has been perfectly cleaned before installing.

Never cut with water whilst the block is in-situ, doing this will permanently stain the surface.

For diagrams and important installation guidance, see page 184

DRIVESETT® ARGENT® CIRCLE

Driveways

Drivesett Argent, Buff (B) driveway with new circle feature

- The versatile Drivesett Argent Circle can be used to break up the uniformity of large areas in Argent driveways
- Circles can be used to create a focal point that will make your driveway stand out
- Can be laid with an area of Drivesett Argent of any colour or as a separate feature
- Available in all four Drivesett Argent colours

Designed and Installed by Elite Paving (Yorkshire) Ltd, Driffield

- Creating a truly bespoke driveway has never been easier with a greater range of Drivesett Tegula Original sizes
- Characterised by the same lasting high quality looks as Drivesett Tegula Original, the flexibility of larger sizes can make driveways which really stand out
- Larger sizes can be randomly added into designs to break up uniformity on large areas and add visual interest

Mix and match jumper blocks and other Drivesett Original sizes for quicker coverage and maximum impact

Drivesett Tegula, Traditional (TR) and Harvest (H) mixed.

DRIVESETT® NATRALE

Driveways

Drivesett Natrale, Bronze (B)

Designed and Installed by Trevor Smith Landscapes Ltd, York

- Use Drivesett Natrale to obtain the effect of a split natural stone surface texture for a fraction of the cost
- A range of block sizes and warm colour mixtures which provide great random designs and incredibly durable driveways
- Wide variety of faces and four block sizes help break up uniformity in large areas
- Realistic natural stone colours
- A lower carbon footprint and lower cost alternative to natural stone

DRIVELINE® METRO

Driveways

Driveline Metro Driveway linear design featuring Light Grey (LG), Dark Grey (DG), Maroon (MA) and Rose (RO), random mix.
Edged with Driveline Metro, Dark Grey (DG)
Designed and Installed by Milner Landscapes & Construction, Birmingham

- Every Driveline Metro block is lightly washed to expose rich aggregates and give a premium finish
- Driveline Metro strikes the balance between a sleek contemporary look and easy to install driveway product
- The 80mm depth allows this long thin block to be easily installed on a standard driveway sub-base
- With four elegant colours and one bold block size, different ratios can be used to create your driveway statement

CUTTING THE BLOCKS

When cutting the blocks as outlined in Marshalls Flexible Installation Guidelines (see page 186), it is important to make sure that once cut with water the block has been perfectly cleaned before installing.

Never cut with water whilst the block is in-situ, doing this will permanently stain the surface.

For diagrams and important installation guidance, see page 186

DRIVELINE® ELISE®

Driveways

Driveline Elise, Brindle (BRI), edged with Tegula Kerb, Pennant Grey (PG)
Design and installation by Leading Landscapes Ltd, Linford, Essex

- Twice the size of Driveline 50, Elise is guaranteed to attract attention
- Driveline Elise is a single size driveway block that will look good whatever the size of property
- The attractive hammered look adds interest to driveway areas
- The larger size should cut laying times and speed completion

DRIVELINE® PRIORA®

SUDS

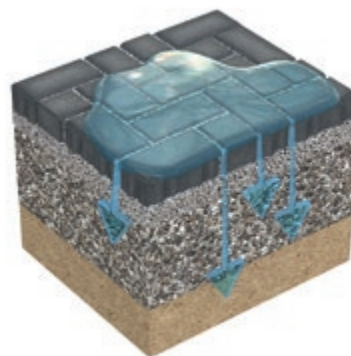

Patented Permeable Block Paving

Driveline Piora, Brindle (BRI) with Driveline 4-in-1 Kerb, Charcoal (CH)

Driveway drainage made easy with this high performance and sustainable block paving

- Driveline Piora Permeable Paving is a Sustainable Urban Drainage System (SUDS) for driveways, no additional drainage is needed
- Driveline Piora is the perfect permeable alternative to the market leading Driveline 50
- For co-ordinating kerbs and edgings see pages 180-183
- No planning permission, membranes, tanks or soakaways required

All Piora Permeable Driveways have a unique patented design.
For details and diagram, see page 188.

DRIVEGRID®

Permeable Driveway Grid

Drivesett Tegula, Traditional (TR), Driveway with overspill parking area of Drivegrid beneath a Decorative Aggregate, Golden Blend

- Marshalls recommends Drivegrid is installed with Marshalls Tegula Kerb and a driveway entrance apron such as Drivesys for the perfect finish
- Use 5 to 16mm aggregate with Drivegrid
- Marshalls offers a 12 months' guarantee on Drivegrid only. Marshalls Hard Landscape Guarantee is not available for this product

CO₂ per m²

STANDARD

SCAN PAGE

Ideal for creating occasional car parking areas

	Sizes mm (nominal)	Sheet Cover m ²	Sheets/pack	Weight (kg/pack)	Cell Size Diameter mm	Wall Thickness mm	Pack Size m ²	Colour
Sheet Size*	1176 x 1528 x 32	1.8	16	60	42	0.8-1.4	28.75	White

*Please note sheets are supplied folded in half. The membrane is in one piece, but plastic grid has a split down the centre for ease of transportation.

- Designed to stabilise gravel driveways and pathways
- Drivegrid is membrane backed to inhibit weed growth, this plastic honeycombe cell is then filled with 5-16mm angular gravel such as Cotswold, Terracotta Chippings, or Multi Flint Spar, (see p.120-121)

DRIVEWAY ESSENTIALS

CHANNELS, DRAINAGE & SECURITY POST

Marshalls provides a number of products which help manage the rainwater that lands on driveways in line with Government front garden legislation

INSET MANHOLE COVER

Inset Manhole Covers and Linear Drainage Channel are recommended within domestic driveways, paths and patios for the best cosmetic result.

Inset Manhole Cover

Marshalls Channel and Drainage products can be used with hard and soft landscaping materials to create a front garden area which meets the requirements of Government legislation. It is recommended that the householder considers the permitted development rights regarding front gardens in their local area before commencing work.

For diagrams and important installation guidance, see page 187

Driveline Channel, Brindle (BRI), Edging, Driveline 4-in-1 Kerb, Charcoal (CH)

Drivesett Channel, Pennant Grey (PG), Edging Drivesett 4-in-1 Kerb, Pennant Grey (PG)

Driveline Channel, Brindle (BRI)

Drivesett Channel, Pennant Grey (PG)

Linear Drainage Channel is recommended to be laid on every non-permeable block paved driveway to manage rainwater.

Telescopic Security Post set in Drivesett Argent, Dark (DK)

Telescopic Driveway Security Posts are the ideal driveway security statement.

They maintain an open plan look with the element of protection and safety that only gates would provide.

- Drawn up and locked when needed, the tough, thief-resistant lock resists drills
- Available in yellow, black or stainless steel to be conspicuous or to blend in
- Galvanised for long, trouble-free life
- Discreet hinged plate is all that is visible when not in use

	No. item/pack	Weight (kg/pack)	Colours
Telescopic Security Post	1	22	Black, Yellow, Stainless Steel
