Paving at its Best

Star Paving Services

Covering Norfolk & Suffolk

The use of **Concrete Block Paving** has become one of the most popular and widely used paving finishes in both domestic and commercial situations over the past years

When installed correctly, it will provide a lasting durable surface and be tough enough for the most demanding of uses. It not only combines exceptional visual appeal but additional value to your property

Concrete block paving has been installed by thousands of discerning home owners and businesses alike.

An extensive choice of colours, laying patterns and designs, complemented by matching edging kerbs, drainage channels and inlay manhole covers make it suitable for properties of all ages.

Quality Workmanship & Materials

A paved driveway, patio or path is one of the finest investments you will possibly ever make. Every block or slab is individually laid by one of our highly experienced teams with over 65 years experience. The whole construction, from sub-base to wearing surface, is carried out using fully proven design techniques in accordance with B.S.6717. In addition all relevant block paving is laid in accordance with B.S.7533. All of this ensures the highest standards of manufacture / laying and build quality for your Paving installation.

BRICKWEAVE & DECORATIVE PAVING SPECIALIST

Choosing Your Contractor

Paving is a very specialized trade and for peace of mind you should choose a company who has the years of expertise, skill, experience and back-up, to ensure that you get complete satisfaction. A block paved drive, slab patio or path is one of the finest investments you can make. It is also one of the largest single investments made by most home owners, which is why it is very important to choose the right company.

A company that will give you complete peace of mind, thus avoiding the disappointment of a bad installation and poor quality workmanship.

Blockseal ultimate resin protection

Protect Your Investment

All paving can be sealed from new. Existing paving can be pressure cleaned first & then resin sealed, helping it to retain it's "as new" appearance of the block or slab surface. This enables oil, fuel and other spillages to be effortlessly removed, therefore preventing unsightly stains. It also helps in eliminating the growth of moss, weeds and lichen. Block seal resin is a clear UV stabilized solution that has been specifically developed for this purpose, providing a durable long lasting protective finish. It also has the added advantage of enhancing the colours and appearance of the paving.
